Jedo Computer Institute & Educational Service | Sokoto State, Nigeria | 2010

Certificate in Basic Computer Appreciation

Police College of Information Technology | Abeokuta, Ogun State | 2009

RELEVANT EXPERIENCE

Computer Operator

The Nigeria Police | Owerri, Imo State, Nigeria | 2016

Operated computer systems to input and retrieve data according to established protocols, consistently meeting 24-hour turnaround deadlines for over 100 clients.
Created and maintained comprehensive records and reports, analyzing operational efficiency and customer requirements to improve data accessibility and decision-making speed.
Tested and evaluated hardware capabilities, including HPs and GPS systems, identifying operational efficiencies that enhanced tracking accuracy for over 70 systems.
Trained new employees on computer maintenance procedures, improving team competency by 60%.
Streamlined internal communications, improving mail delivery efficiency by 40% through online systems.
Maintained accurate daily logs of system performance to ensure data integrity and operational accountability.

Computer Operator

United Nations Mission in Darfur | 2014

Managed data backup and document restoration processes, eliminating 90% of data loss risk.
Processed and sent daily routine postings and reports to UN headquarters with precision and timeliness.
Prepared professional PowerPoint presentations for seminars and lectures to support training and communication.
Developed software calendars and certificates using Microsoft Publisher.
Analyzed and refined change request processes, improving technical writing for testing procedures used in user training, resulting in a 30% reduction in documentation errors and a 25% increase in training effectiveness.

Sanctuary Leader

Living Faith Church Akwakuma | Imo State, Nigeria | 2022 – Present

Delivered detailed performance reports to 150+ unit members, providing analyses that improved service efficiency and satisfaction rates by 75%.
Increased productivity by 40% through fostering inter-relationship and clear communication.
Improved adherence to protocols by 30% through individual advisement and coaching.
Promoted cohesive teamwork and interpersonal connection through monthly meetings, boosting retention rates and attendance.

KEY SKILLS

Data Entry & Management	Technical Proficiency	Core Competencies
