

Spiritual Progression & Professional Growth Portfolios

Victor Valentine Japhet

IT497 IT Capstone

June 13, 2026

My Starting Point – IT Journey & Dream

- From my father's stationery store with a typewriter to serving in the United Nations Mission in Darfur, I saw technology transform lives.
- I once watched other kids browse the web while I struggled to type; that moment gave me courage.
- Today, I solve real-world problems, making tech accessible across Africa.
- Initial Dream: Be part of Africa's digital transformation.

Spiritual Progression – Christlike Attributes in IT

- Charity / Belonging: My 'Tech Skills for Life' workshop serves youth afraid of technology. I meet them where they are. (2 Nephi 26:33)
- Patience: I train users slowly and without frustration, especially when they struggle. (Proverbs 3:5–6)
- Integrity: I respect user privacy and never abuse admin access. (Matthew 5:16)
- Peacemaking: I calm tense situations in technical support. I listen before I solve. (3 Nephi 11:29)
- Diligence: I keep learning new IT skills without waiting to be told. (D&C 58:27–28)

Spiritual Progression – Scriptures & Peace Audit

Key Scriptures:

- • D&C 58:27-28 – 'Men should be anxiously engaged in a good cause.' Take initiative in IT.
- • Proverbs 3:5-6 – 'Trust in the Lord...' Trust God when work gets stressful.
- • Matthew 5:16 – 'Let your light so shine...' Use IT skills to help others.

Ethical Dilemma Reflection & Warning Signs

My Ethical Commitment:

- I will never abuse admin privileges. If tempted, I ask: 'Would I want someone doing this to my mother's records?'

My Personal Warning Signs:

- • Defensiveness: Pause 10 seconds and say 'Help me understand your perspective.'
- • Impatience : Remember how I struggled to learn IT concepts at the cybercafe.
- • Cutting corners : Re-read my ethical dilemma reflection.

How My Faith Shapes My Leadership

- Servant Leadership: I don't just fix problems — I ask, 'How can I help you succeed?'
- Conflict Resolution: Applying Anatomy of Peace principles has reduced tension in my church leadership team by 80%.
- Light vs. Darkness: I actively drive out gossip, blame, and negativity, replacing it with transparency and accountability.
- Co-creation: 'Let us reason together' (D&C 50:10). I co-created my workshop curriculum with youth — results improved dramatically.

Bridges Infographics

Professional Growth – Technical Competencies

- Firewall configuration (pfSense) – Intermediate | Home lab
- User support & training – Advanced | 'Tech Skills for Life' workshop (15 youth trained)
- Network troubleshooting – Intermediate | 50+ mock tickets resolved

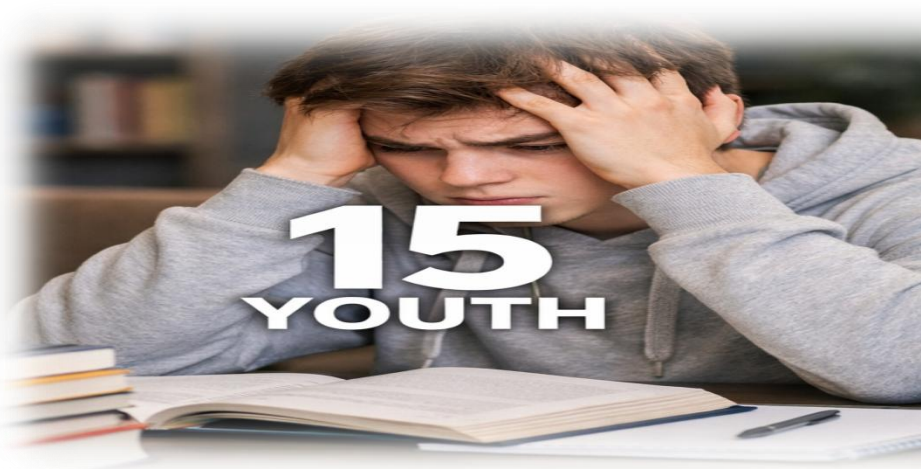

Key Projects:

- Tech Skills for Life: 15 youth, 90% less tech anxiety
- Home Lab: pfSense, Windows Server, Ubuntu
- Help Desk Sim: 50+ tickets resolved
- Skills Developing: Active Directory | PowerShell | Python | AWS/Azure

Service Learning Project – 'Tech Skills for Life' Workshop

- **15+ Youth Trained**
- **90% Reduced Tech Anxiety**
- **2-day workshop teaching youth free online tools**
- **Applied AMP model and 5 stages of problem solving**
- **Outcome: Youth now confident using digital tools for school and job applications**

Work Experience – Where Faith & Career Converge

- Living Faith Church – Sanctuary Leader (2022-Present)
- 75% improvement in service efficiency
- Reduced team tension by 80% using Anatomy of Peace principles
- UN Mission in Darfur – Computer Operator (2014)
- Eliminated 90% risk of data loss
- Reduced documentation errors by 30%
- Lesson: Spiritual integrity is a professional asset. My faith made me a better leader in every role.

Peer Review Impact – Feedback To Brandon Florez

Strengths I Identified:

- Clear and logical organization
- Authentic faith-technology connections
- Detailed ethical dilemma analysis
- Specific SMART goals

Suggestions I Provided:

- Add an executive summary
- Expand warning signs with specific triggers
- Add measurable outcomes to projects
- Fix formatting inconsistencies
- Clarify certification status

Three Probing Questions I Asked:

1. "How would you respond to a teammate who argues the bonus is necessary to support their family?"
2. "How did your remote mission experience shape your understanding of technology for ministry?"
3. "What specific strategies will you use to maintain scripture study during finals or crunch time?"

Peer Review Impact – Feedback from Brandon Florez

- Feedback Received: How I Implemented It
 - 1. Add more detail about project decisions leading to 90% reduction
 - Expanded workshop section with AMP model and 90% metric context
 - 2. Add portfolio introduction
 - Added 'My IT Journey & Dream' personal story section at top of portfolio
 - 3. 'Leverage my teaching talent'
 - Added 'How My Faith Shapes My Leadership' section with co-creation example

Reflective Essay – Alignment & Evolution of Goals

Alignment with Initial Goals:

- Goal 1 (Portfolio): Complete – Three project case studies included
- Goal 2 (Reflections): Complete – Spiritual principles integrated throughout
- Goal 3 (Certification): In progress – Added to action plan (3 months)

How My Goals Evolved:

- From 'completing a portfolio': creating a professional website with interactive features
- Service-learning project became specific: 90% tech anxiety reduction metric
- Future Use: Apply for IT support positions, demonstrate disciple-leadership to employers

Action Plan – Spiritual Development (90 Days)

- Weekly Peace Audit – Every Friday Expected: Reduced 'heart of war' moments
- Daily scripture study (20 min) Expected: Stronger connection to God
- Attend church meetings and serve weekly Expected: Practice Christlike attributes
- Temple attendance – Monthly Expected: Spiritual renewal

Action Plan – Professional Development (90 Days)

- Complete Cloud Fundamentals certification – Within 3 months; AWS or Azure credential
- Expand 'Tech Skills for Life' workshop – Within 6 months, Reach 50+ youth
- Apply for IT support positions – Within 6 months, Professional experience
- Learn Python basics – Within 4 months, Automation skills
- Update portfolio monthly, Current skills visible

My Commitment as a Disciple-Leader

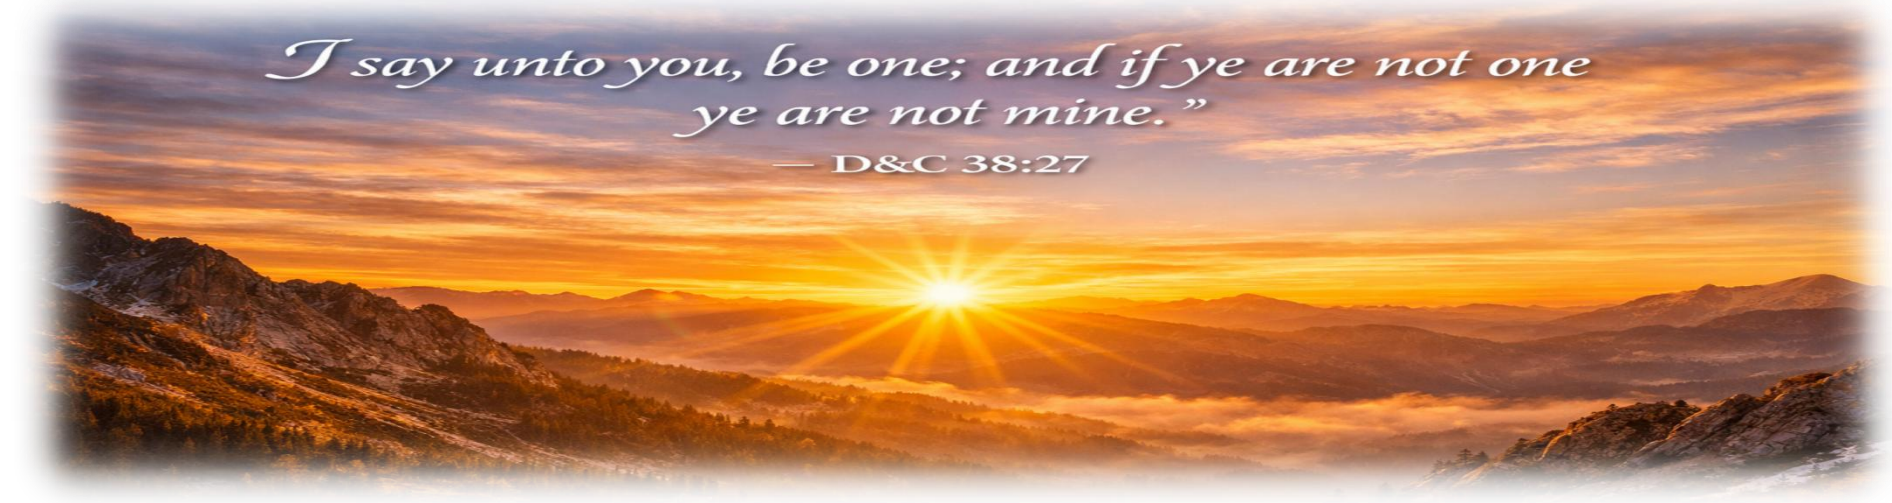

'I say unto you, be one; and if ye are not one ye are not mine.' –
D&C 38:27

My Covenant:

- Use my IT skills to serve, not just succeed
- Never abuse admin privileges – protect privacy and dignity
- Mentor youth in technology across Africa
- Drive out darkness with transparency and accountability
- Anchor Scripture: 'Let your light so shine before men...' – Matthew 5:16

*I say unto you, be one; and if ye are not one
ye are not mine. ”*

— D&C 38:27

Course Evaluation Completed

- Course evaluation submitted on June 13, 2026
- Thanks to my instructor and peers for the feedback that shaped this portfolio.
